AMEND Senate Bill No. 3895*

House Bill No. 4011

By deleting subdivision (c)(2) of Section 4-40-403 of the amendatory language of Section 1 of the bill as amended by Senate Amendment 15 in its entirety and by substituting instead the following:

(2) The Center shall provide grants to providers of primary and specialty health care services related to the treatment of pre-diabetes and diabetes. Any community and faith-based clinic, federally qualified health center ("FQHC"), county health department, hospital, or other health-related service provider that is also a 501(c)(3) corporation or a public entity is eligible to apply in accordance with the provisions of this subdivision. In order to be eligible for a grant, an entity shall also have been in existence for three (3) years, demonstrate evidence of financial stability, utilize evidence-based practices and show measurable results in its programs. The Center shall establish the grant criteria and make award decisions. In distributing such grants, the Center shall strive to create a coordinated, state-wide set of resources to assist Tennesseans in their efforts to prevent or treat diabetes.
